**Subject:** 20200428 - Let children learn to manage.... thank you for Virtual classes...

Dear Madam,

Ramadan Kareem to you and to your entire team.

Congratulations for the grand success of Virtual class programme and it was possible because of you and your team's efforts and co-operation.

Your clear instructions to follow the classroom etiquettes was the baseline for the success.

Since we are in India, we thought it is difficult to catch up the lessons by our daughter and we planned to write a letter to you to prefer the recorded class instead of virtual classes. But we are very happy that our daughter had a new experience of using technologies.

Earlier we had a question about class room equipment how the teachers would be deal that. As usual our teachers efforts are amazing and bring us the classroom feel in the first day itself. Teachers like Mrs.Shaheen plays the major role in influencing the minds of children and make them concentrate the classes. It's our pleasure to have a teacher like Mrs.Shaheen for our daughter.

We would like to share the virtual class experience with Mrs. Shaheen.

- Start up with prayers and warm up exercise helps the children to focus the class.
- "1, 2 eyes on you" "Give me one, Give me two" helps continuing to focus the classes without disrupting.
- Her patience and answering/ clarifying student's doubts is amazing like she tells to her students. (My children are amazing it gives a positive attitude to the children to approach her easily).
- Sending weekly updates, CW, HW worksheets on every Thursday helps us for the early preparation of smooth running of the classes.
- Her supports on practice assignment and weekend activities are remarkable. Attached some of the activities which did by our daughter R.H. Mahisha.

Finally your specific instruction for smooth running of virtual classes is true and i.e., "Let Children learn to manage zoom class. By doing so, we are teaching them life skills".

We thank you for your commitment, dedication and salute your efforts to positively influence the students to the new heights.

Regards

Parents of R.H. Mahisha (Grade I 'E' Section)

Rajapandi & Hemalatha
