

Respected Mam,

I am Mother of Zafar Habeeb Rahman, LKG-D.

Recently , I got a job transfer to Dammam, and it was mandatory for me to apply TC for my kid from Yaara .

Mam, it has been a great experience with your school.My kid was always willing and enthusiastic to go back to his class each day.

Each day he comes back , he used to describe to me, so vividly , the activities done in class.His class teacher too , was so apt and regular in letting me know and inform about each and every aspect of my kid, PUNCTUALLY.This is something which any mother would need and pray to get.

" Teacher is the second mother "...Mam, this i experienced through Zafar's class teacher Ms.Fahima.I am grateful towards her.When it was decided to relocate from Riyadh,the first thing I wanted to do was to run to her and give a tight hug..and I did !!!

Individual care and attention..I know, it's the responsibility of all teachers ..But this is my first experience and I really wanted to share this with you, Mam.Am sure , teachers like her bring more love and kindness to the school..because more than the academics and facilities , it is the teacher's attitude and mentality which creates a long lasting impact and imprint on the kid's s heart , wholethrough their lives.

Mam, I respect the school.I have immense prayers for success and happiness of each one of you, doing such a rewarding profession.

Thank you.

BEST WISHES

Dr.Seema Mohamood

Dammam.
