This email is to express our sincere gratitude and hearty appreciation for our ward Haya's (1E) class teacher Mrs. Shaheen. Her patience and innovative techniques of teaching are versatile. Each day for each lesson she comes up with new songs, tricks and activities for the kids to seize the concept without any doubt.

Even during Ramdan when we all normally are comparatively tired than normal days she used to welcome and teach children with the same enthusiasm and energy. She handles all kids and their endless questions wisely and happily.

She found out ways to manage online classes interesting and effective. She keeps motivating and keeps reminding the kids how amazing they are...

In short our experience with her was just splendid and joyful.

With Regards...

Muneera & Sulfikar (parents of Haya)

P. S these are some of the activities that were conducted during online classes.
